

Question: For the Exam Web Page, please choose the best answer for this test:

Test ID: 5.G

Test Name: 3.3.3-error-suggestion

Test Condition: Guidance (e.g., suggestion for corrected input) is provided about how to correct errors for form fields.

Exam Web Page

- ☐ a. **Pass** - Sufficient guidance is provided for correcting errors, when possible.
- ☒ b. **Does Not Apply** - The form element has no automatic error detection.
- ☐ c. **Not Tested** - Guidance for correcting errors is possible but not provided since most users do not need it.
- ☐ d. **Fail** - When a form field has error checking, sufficient guidance for correcting errors is not provided.
- ☐ e. **Fail** - Guidance for correcting errors is possible but not provided since it would be too detailed.
