

Question: For the Exam Web Page, please choose the best answer for this test:

Test ID: 11.A

Test Name: 3.1.1-page-language-defined

Test Condition: The default human language of each web page can be programmatically determined.

Exam Web Page

- ☒ a. **Pass** - The default primary language is valid per IANA, and matches the default human language for the page. 
- ☐ b. **Fail** - The default human language of each web page cannot be programmatically determined.
- ☐ c. **Does Not Apply** - The default primary language is not provided but should be understood anyway.
- ☐ d. **Fail** - The default primary language is valid per IANA BUT does not match the default language of the page.
- ☐ e. **Not Tested** - The default primary language code is not provided.
