Test Condition: Guidance (e.g., suggestion for corrected input) is provided about how to correct errors for form fields.

Exam Web Page

- ☒ a. **Fail** - Sufficient guidance for correcting errors is not provided. ✖
- ☐ b. **Pass** - If error checking is provided for a form field, sufficient guidance is provided for correcting errors, when possible.
- ☐ c. **Fail** - Guidance for correcting errors is possible but not provided since it would be too detailed.
- ☐ d. **Does Not Apply** - The form element has no automatic error detection.
- ☐ e. **Not Tested** - Guidance for correcting errors is possible but not provided since most users do not need it.
