Question: For the Exam Web Page, please choose the best answer for this test:

Test ID: 14.B

Test Name: 1.3.1-cell-header-association

Test Condition: All data cells are programmatically associated with relevant headers.

[Exam Web Page]

○ a. **Fail** - Data cells are programmatically associated with relevant headers, but the data is confusing.

○ b. **Pass** - All data cells are programmatically associated with relevant headers.

○ c. **Does Not Apply** - There are no data tables on the page.

◉ d. **Fail** - Data cells are not all programmatically associated with relevant headers. ✔

○ e. **Fail** - Data cells are not all programmatically associated with relevant headers but they are not always essential.
